Notes: Atlantic City Expressway data was recorded at the Pleasantville Toll Plaza located just beyond mile marker No. 4. In 2008, SJTA installed traffic counters to capture traffic entering Atlantic City on Routes 30 & 40. Previous count data provided by NJDOT. These three locations comprise the "outer" Atlantic City cordon line. Approximately 16% of eastbound ACE traffic counted at the Pleasantville Toll Plaza exits at Interchange No. 2 to Route 40/322.

Volumes were affected by construction on Route 30 in 1982-84, 1992-95, 2001, 2007-08; on Route 40/322 in 1988-90, 1997-98, 2001; and on the ACE in 1996-97, this has affected traffic patterns by diverting vehicles, these diversions are followed by a recovery period when construction ceased. Other factors affecting vehicle volume included an ACE toll increase in both November of 1998 & 2008 and construction of the Brigantine Connector in 1999-2001 which opened July 31, 2001.
